iPhone & iPad (iOS) - connect to TAFE NSW Wi-Fi

1. Tap Settings
2. Tap Wi-Fi
3. Tap to turn Wi-Fi on
4. Tap TAFENSW in the list
5. Type your TAFE NSW username and password, then tap Join

Format your username as firstname.lastname (example Mary.Doe2)

6. Tap Trust
7. Tap the TAFENSW information icon
8. Scroll down

Set these to Automatic:
Configure DNS
Configure Proxy

Note: If you find you need to change your DNS setting, this may affect your ability to connect to other networks you have configured previously.

9. You are now connected to the TAFENSW Wi-Fi
10. To test this, you can tap Safari
11. Type google.com.au in the search bar
12. If the Google page displays correctly, you are connected.
iPhone & iPad (iOS) - more help

If you have followed our instructions overleaf but you still cannot connect to the Wi-Fi, try one or more of these:

**Forget the network**

This may help when you have changed your password, or if the Wi-Fi connection is not working after you followed our instructions

- Tap Settings
- tap Wi-Fi
- tap the TAFENSW line

- tap Forget this network
- now try to rejoin the network from scratch.

**Renew the lease**

- Tap Settings
- tap Wi-Fi
- tap the TAFENSW line

- scroll down, tap on Renew Lease, tap on Renew Lease again
- close Settings by pressing the Home button
- check that you are now connected (follow steps 10 and 11 of our instructions overleaf).

**Enter the proxy settings manually**

1. Tap Settings.
2. Tap Wi-Fi.
3. Tap the TAFENSW information icon.

5. Type in the Server and Port fields

   proxy.tafensw.edu.au

   8080

6. Then tap Wi-Fi.
7. Test that you are now connected, by following the instructions overleaf, from step 10.

**Still not working?**

- Library staff may be able to help you to follow the instructions.
